

NTT DATA

NTT DATA welcomed Dell Services into the family in 2016. Together, we offer one of the industry's most comprehensive services portfolios designed to modernize business and technology to deliver the outcomes that matter most to our clients.

Choose From a Wide Variety of Hosting Services and Technologies for Custom Support

NTT DATA Cloud On Demand with ZeroLag

NTT DATA Services
formerly Dell Services

Cloud solutions powered by ZeroLag

NTT DATA Cloud On Demand with ZeroLag offers state-of-the-art hardware, software and networks, with specialization in Microsoft Exchange and SharePoint hosting, as well as VMware-based private clouds. ZeroLag combines powerful technology with a highly experienced team to engineer custom solutions that meet your unique needs, and provide peace of mind that your mission-critical applications and data are always available, highly responsive and fully secured.

Get freedom of choice with our vast cloud partner ecosystem

NTT DATA takes the uncertainty out of the cloud with a client-centric approach to help your organization take full advantage of the cloud. Whether you need a developer-friendly public environment, a mission-critical single-tenant private cloud or a colocation solution, our partner ecosystem combined with NTT DATA expertise provide a wide range of solutions to choose from — allowing us to match your specific business needs to the most appropriate cloud solution. NTT DATA blends intellectual property with a wide range of partner technologies to deliver unique, optimal performance based on your application needs and the business outcomes you demand. This means simple purchase logistics, uncomplicated vendor relationships and the confidence of NTT DATA services and support, whether you have one cloud platform or many.

Key benefits:

- Robust end-to-end portfolio
- Proven vertical expertise
- Simple, unified experience
- Unparalleled expertise, support and service
- 99.999% uptime SLA
- Uses Enterprise-class Dell Servers

<ul style="list-style-type: none"> Provides Microsoft Exchange Server and SharePoint Server as infrastructure as a service Offers all the benefits and flexibility of enterprise-grade productivity tools without the capital expense Is available on dedicated or shared server configurations 	<ul style="list-style-type: none"> Combines the security and reliability of dedicated servers with the flexibility and cost benefits of a virtual environment Allows you to scale resources up or down as needed Provides full management of your cloud to ensure uninterrupted performance 	<ul style="list-style-type: none"> Provides high-performance dedicated servers for mission-critical websites and web applications Offers custom-configured servers based on client needs Is available as fully-managed or co-managed environment 	<ul style="list-style-type: none"> Offers cost-effective shared hosting plans that don't compromise on security or support Provides full management to ensure maximum reliability and performance 	<ul style="list-style-type: none"> Houses your hardware in our state-of-the-art Tier 4 data center

Problem solving

ZeroLag prides itself in taking the time to understand your business challenges in order to provide intelligent solutions. They are relentless in their ability to solve problems.

Award-winning reliability

ZeroLag offers its clients a 100% network uptime SLA.

Superior performance

ZeroLag is constantly working to provide the highest level of performance possible, using only top name brands such as Cisco Routers, F5 Load Balancers and Dell PowerEdge Servers.

Total security

At ZeroLag, security is one of the top priorities. Sitting behind a Cisco hardware firewall is a state-of-the-art network and cutting-edge encryption. ZeroLag's data centers are patrolled by armed guards 24x7, and feature biometric hand scanners and a state-of-the-art CCTV system with cameras on every door and hallway.
